Project
E-commerce site

Description:
Developed a feature-rich E-Commerce web application using React.js and Redux

1. **User Authentication:**- Designed and implemented a secure user authentication system with login and register functionalities, ensuring a personalized experience for each user.

2. **Shopping Cart:**- Integrated an "Add to Cart" feature allowing users to easily add products to their shopping cart for a streamlined shopping process.

3. **Order Management:**- Implemented a 'My Orders' section where users can track their order history, view order details, and check the status of their purchases.

4. **Form Validation:**- Implemented robust form validation to enhance data accuracy and user experience during registration and checkout processes.

5. **Toast Messages:**- Incorporated toast messages to provide real-time feedback to users, enhancing the overall usability of the application.
